

# Heidi Montag Before After

The glimpse at Heidi Montag before and after pictures can tell you the difference. Reality Television Star from “The Hills” Heidi Montag admits that her **obsession for** plastic surgery is increasing day by day. The **23-year-old** underwent 10 cosmetic procedures in one single day.

Seems like her quest for perfection will not be over any time soon and we might potentially have another Angelyne (an LA pop culture figure) or (Casey Johnson) in our hand or may be way beyond them.

Heidi Montag who **is all set to launch** her pop career revealed the amazing results after the procedures this week. She underwent the surgery procedures in the November of last year.

Heidi Montag **underwent the knife** first time when she was 21-years-old, till then she had her nose done and collagen lip injections .

According to People magazine, Heidi Montag had all types and kinds of cosmetic procedures done on her body, from buttock augmentation to liposuction, and from boob implants to collagen lip injections.

Heidi had a Botox procedure in forehead, mini brow lift, and chin resection procedure, while had a cheeks injections too.

She told the magazine that she love her body, she said she feels a little delicate, but have never felt beautiful ever before. But she didn't deny

the fact that she felt pain in each and every body part, she said she was in so much pain that she doesn't know what to do.
